- Communication
- Problem Solving
- Leadership
- Time Management

TECHNICAL SKILLS

- C
- JAVA FULL STACK
- SQL

ACHIEVEMENTS

August 2024
Certificate for Java
programming

October 2023
Certificate for Cyber
Security

LANGUAGE

- English
- Telugu

CAREER OBJECTIVE

Passionate and driven Java developer with a robust understanding of core Java principles and extensive experience in developing scalable, high-performance applications. Adept at utilizing frameworks such as Spring and Hibernate to create efficient and maintainable code. Committed to leveraging problem-solving skills and technical expertise to contribute to innovative projects, drive continuous improvement, and achieve professional growth in a dynamic and collaborative environment.

INTERNSHIP

CYBER SECURITY

JUN 2023 – SEP 2023

- Assisted in monitoring and threat detection.
- Supported vulnerability assessments and security audits.
- Conducted research on emerging cyber threats.

PROJECTS

Guava Leaf Detection using Deep Learning

JAN 2024 – MARCH 2024

- Developed deep learning model for guava leaf detection.
- Utilized CNN for guava leaf classification.
- Implemented preprocessing techniques for accurate detection.

Malware analysis and reverse engineering

JUN 2023 – SEP 2023

- Conducted malware analysis and reverse engineering.
- Identified malware behavior through reverse engineering.
- Utilized tools for in-depth malware analysis.

Portfolio Website

JAN 2023 – FEB 2023

- Created responsive portfolio website using HTML/CSS.
- Designed portfolio showcasing projects and skills.
- Built interactive portfolio with seamless navigation.
